detect-a-chip .... it reads

all ISO Transponders, Trovan's ID-100 'Unique' & Avid encrypted

detect-a-chip has been specifically designed to meet the needs of those who require an easy-to-use, 'pocket sized' microchip reader on a limited budget. This scanner's exceptional reading ability makes **detect-a-chip** ideal for 'use in the field', in Kennels and catteries, in zoos, animal quarantines, grooming parlours, vets, animal sanctuaries and Rescue organisations.

At time of going to print:

detect-a-chip reads all known *animal implantable microchips including:*
ALL FDX-A & FDX-B, ISO 11784/5 compliant transponders;
FECAVA transponders; Trovan ID-100 'Unique; Avid Encrypted transponders.

Performance data:

Dimensions:	5 inches x 2.66 inches x 1inch.L x W x H. (metric: 125mm x 68mm x 25mm)
Weight:	100gms
Power supply:	9V Battery
Read distance:	2 - 4 inches (metric 5 - 10 cms) depending on transponder type.

One button menu
Belt clip
Automatically turns off when not in use.

Price

Protect your scanner against those occasional 'drop' accidents with

protect-a-case

This strong, durable and inexpensive rubberised sleeve *could* save users the cost of a new scanner. **protect-a-case** comes in Red or Dark Blue.
